

Coromandel-Colville Community Board Action Schedule - October 2014

Meeting Date	Description of Project	Responsible	Action Taken
26/07/11	Oamaru Bay - Drainage Issues	Roading Engineer	<p>There are two issues here one is the driveway at 390 Colville Rd is being undermined due to damage to the manhole in the SW line and the other issue as raised by the Community Board is the pipe over topping and water flowing over the road.</p> <p>We are currently investigating the manhole to determine a cost effective repair, it may mean that this manhole is replaced. A new pipe across the road would solve both issues; however the estimated cost to do this is \$70,000. Replacement of the manhole would be considerably cheaper and solve the immediate issue of the under mined driveway.</p> <p>Replacement of the pipe due to the issue of it over topping is a low priority as Council, Opus and Transfield have had no reports or have seen any issues with the pipe overtopping other than what the Community Board have told us. If it does overtop there must be very little damage caused to the road or other infrastructure as over recent years we have not had to do any repair there after a heavy rain event.</p>
29/11/11	PowerCo Donation to Community Project	Area Manager	Member Brett to address this item
11/02/13	Huaroa Street Drainage	Roading Manager/Programme Manager	On-site meeting to be scheduled.
