

Proposed Thames Coromandel District Plan Hearings

The Proposed District Plan Hearings Panel

Hearings 22 - 23 October 2014

Submitter: K Vernon

Evidence / Memorandum

1. The summary of submissions and further submissions attached to the hearings agenda / order paper has a number of omissions.
2. I lodged Further Submissions covering all aspects of submissions 397, 320, and 534. These further submissions should be recorded against all individual submission points arising from the primary submissions. This has not been done.
3. I made the same observation in my evidence to hearing No. 2.
4. My evidence to hearing No. 2 also raised issues round the lack of a section 32AA report for changes.
5. I note that the Officer's report is now headed up as a section 42A and 32AA report but the requirements set out in the section 32 (1) to (4) of the RMA, in particular the cost benefit evaluation criteria, have not been satisfied.
