

February 2015 - Thames Community Board Non-notified Resource Consent Schedule

TO	Thames Community Board
FROM	Larissa Doherty - Community Coordinator
DATE	19 January 2015
SUBJECT	February 2015 - Thames Community Board Non-notified Resource Consent Schedule

1 Purpose of Report

To inform the Community Board of resource consent applications that are referred to it.

2 Background

At its inaugural meeting held 4 November 2013 the Thames Community Board delegated primary responsibility to Councillor Goudie and secondary responsibility to Member Cassidy to provide comment on planning matters relating to resource consents and any matters relating to new/renewal leases.

3 Issue

Under the Community Board Delegations Terms of Reference Clause 3.10.4, Community Boards have delegated authority to provide, through a nominated person(s), advice to Council on local knowledge and issues in relation to resource consent applications. The advice is to be provided in relation to consents referred to the Community Board representative(s) by the case officer, within 10-day appraisal period. A nil response will indicate that there are no local issues to be considered by the case officer.

4 Discussion

- On behalf of the Community Board the delegated representatives will provide comment on local knowledge and issues that may be relevant to each referred resource consent application and provide written comment to the Thames-Coromandel District Council Case Officer within five working days of receipt of the Internal Reference Sheet.
- In addition to any comments provided the nominated representatives should seek the wider views of the Community Board where they consider it is appropriate, for example in situations where the issue is likely to have a high level of community significance.
- It is recommended that, where practical, the delegated representatives seek comment from the Area Manager.
- The nominated representatives will report to the Community Board on the resource consent applications that have been received and the extent of comments that have been made through this report to the Community Board on the meeting Order Paper.

5 Suggested Resolution(s)

That the Thames Community Board:

1. Receives the report.
