

# **Waikato Regional Council Proposed Annual 2015/16 Works Programme**

---

<b>TO</b>	Coromandel-Colville Community Board
<b>FROM</b>	Margaret Harrison - Area Coordinator
<b>DATE</b>	19 October 2015
<b>SUBJECT</b>	<b>Waikato Regional Council Proposed Annual 2015/16 Works Programme</b>

---

## **1 Purpose of Report**

To review and provide comment on the Waikato Regional Council Proposed Annual Works Programme 2015/2016 Coromandel Areas 2 & 3 Consent for the Coromandel-Colville area.

## **2 Background**

The Community Board was advised at its 22 September 2015 meeting that resource consents have been granted to the Waikato Regional Council's Integrated Catchment Management Directorate. These consents cover a range of maintenance activities within the District, including vegetation removal, gravel management and excavation, and erosion protection structures. These activities are required to manage river erosion and for flood mitigation.

The Community Board requested that staff from Waikato Regional Council be invited to its November meeting to discuss these consents.

## **3 Issue**

Condition 5 of these consents requires WRC to draft a proposed Annual Works Programme and circulate in accordance with condition 5 to certain parties. The Coromandel-Colville Community Board has been identified as one of those parties.

## **4 Discussion**

The purpose of this consultation is to:

- a) Identify proposed works and how they will be managed in accordance with the conditions of consent.
- b) Allows the Board to consider whether the proposed works will impact on specific sites and/or species of significance.
- c) Identify solutions to address any concerns the Board may have.

*Tonia Clarkson, Zone Manager and Ryan Fergusson, River Management Officer will join the meeting at 11.30am.*

## **5 Suggested Resolution(s)**

That the Coromandel-Colville Community Board:

1. Receives the report.
