

# **Community Environment Group Monthly Report - February, March and April 2016**

---

**TO** Judicial Committee  
**FROM** Barry Smedts - Operations Manager - Community Environment Group  
**DATE** 05 May 2016  
**SUBJECT** **Community Environment Group Monthly Report for February, March & April 2016**

---

## **1 Purpose of Report**

This paper reports on key activities within Community Environment Group for the months of February, March and April 2016.

## **2 Discussion**

### **RMA Monitoring & Investigations**

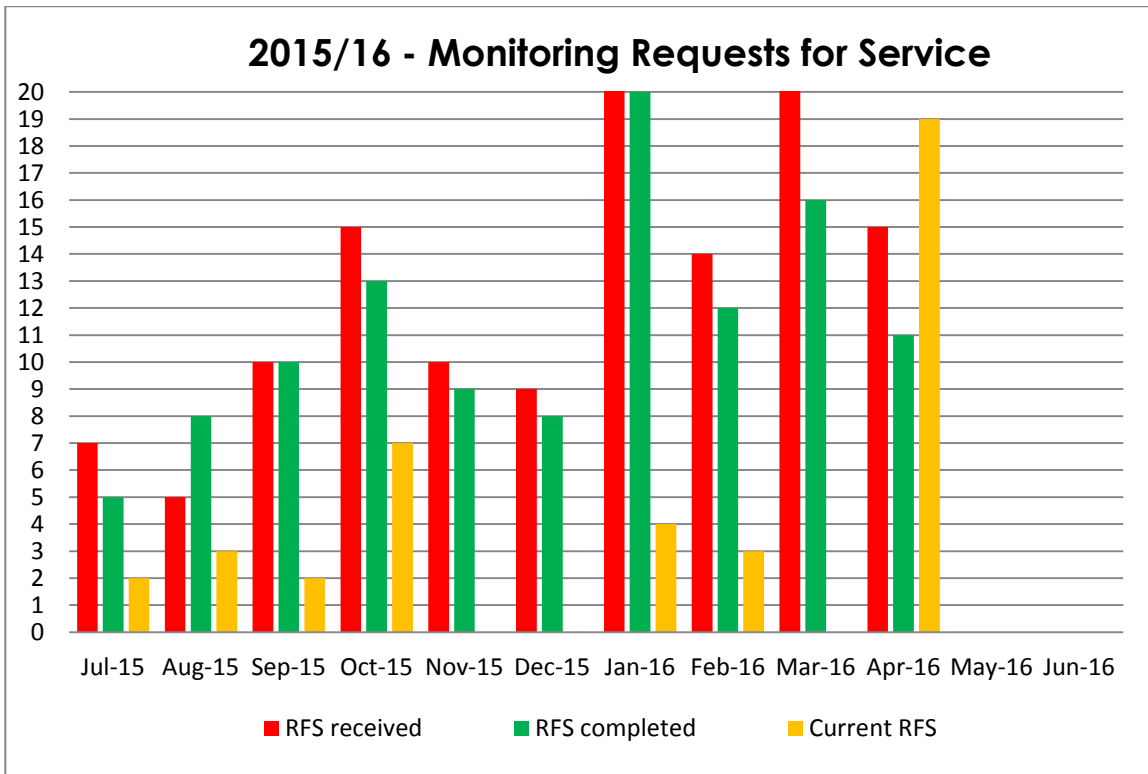

#### **1. Planning Investigations**

| Planning Investigations                | Oct 2015 | Nov 2015 | Dec 2015 | Jan 2016 | Feb 2016 | Mar 2016 | Apr 2016 |
|--|----------|----------|----------|----------|----------|----------|----------|
| New investigations commenced           | 2        | 2        | 0        | 0        | 0        | 0        | 0        |
| Investigations Completed               | 0        | 1        | 0        | 7        | 0        | 4        | 0        |
| Current <b>Live</b> RMA Investigations | 26       | 27       | 27       | 20       | 20       | 16       | 16       |

Compliance has now been achieved for 2 high profile cases in the district after successful enforcement by monitoring staff.

#### **2. Monitoring Requests for Service / Complaints**

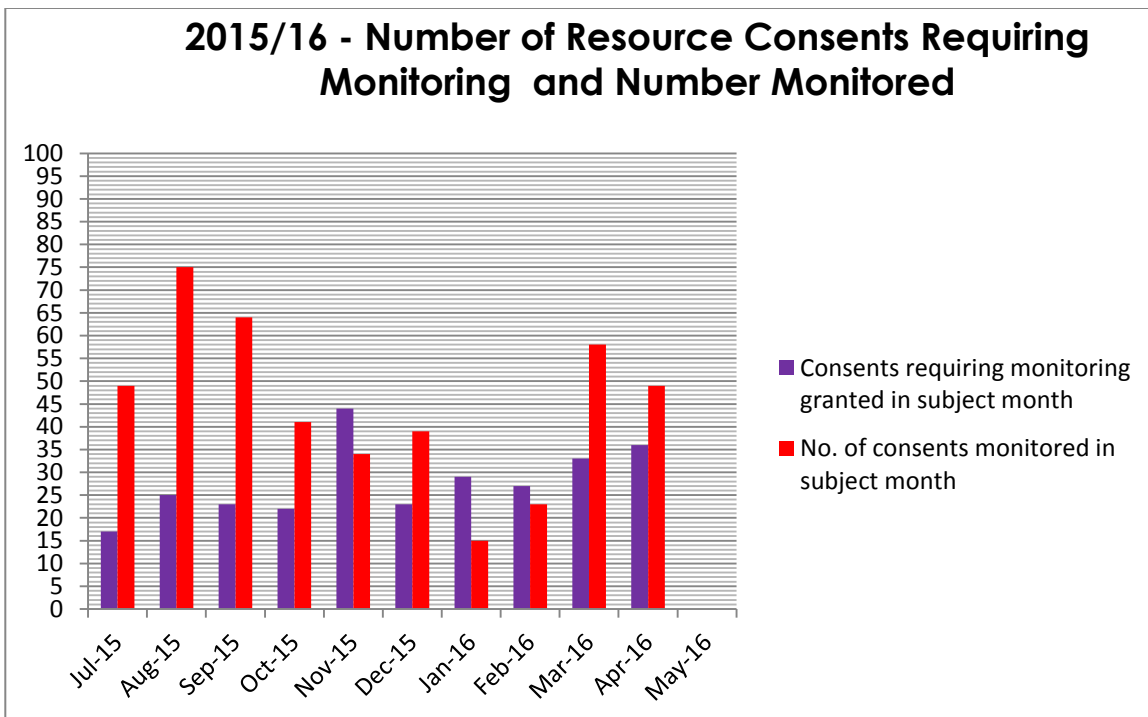

The upwards trend of receiving RFS continued during February, March and April. The number of current RFS reflects the fact that investigations are only opened for matters that have had an enforcement team decision regarding the non-compliance, thus some lower risk and more minor RFS will be remaining open for longer. We are unable to provide the number of current RFS as at 31 March 2016 as the report only gives the current date at the time the report is run and no report was run at the end of March 2016.

The number of completed RFS is the total number completed overall, not just for the cases that were received in the subject month.

### 3. Conditions of Resource Consent monitoring

A new report has enabled a spread sheet to be built showing all consents granted since 1 January 2005 that may still require some form of monitoring. This number is in excess of 1400 consents. Monitoring staff are working their way through these consents as well as consents that have just recently been given effect to.

## **Dog Control**

Dog attacks as reported in January 2016 have reduced and are now comparable to attacks for the same period in previous years. The increase in dog attacks recorded in January was purely coincidental and not related to any particular reason including the influx of visiting dogs from out of the area.

To the end of April there had been 25 dog attacks compared to 30 for the same period in 2015. All were investigated but there were no offences that fulfilled our criteria to take a prosecution due to a lack of clear evidence, the incident being minor or the attacking dog/s not being clearly identified.

Dog registration continues to grow with **4713** dogs registered and 7 unregistered at the end of April 2016. This is a record number of dogs registered with Council and compares to 4566 registered at the end of April 2015. Compliance Officers continue to undertake property surveys to locate unknown and unregistered dogs in the district. Officers are currently undertaking 700 property checks district wide with a target to complete these by the end of April.

The Whitianga dog Pound was upgraded in February 2016 after a brief closure due to security and sanitation issues at this very old facility. The upgrade included lining and painting the interior, painting the exterior and closing in open windows, installing an additional kennel and meshing the ceiling of all kennels. Shelves were also installed to ensure all feed / water bowls were off the floor. The Whitianga Pound is a short term stay facility with all dogs with any security risks being moved to the District Pound in Thames. Security at the pound continues to be an issue as it has no fencing and is exposed to the public in a remote location. Security cameras and signage are being installed as an interim measure while budgets are being sought for fencing.

**Whitianga Dog Pound - showing exterior & refurbished kennels with fold down bedding**

A comprehensive review of procedures including Health & Safety guidelines was undertaken for all three TCDC pounds in April after anomalies were discovered with the contract with the SPCA allowing the use of SPCA volunteers to clean and care for TCDC dogs. This was exposing TCDC to a significant risk due to volunteers having access to impounded dogs many of whom may be dangerous. New procedures have been developed and introduced. These include Risk Identification wall charts, new signage, physical restrictions to dogs classified as dangerous or menacing and daily reporting systems.

During the same period there has been a change in chair of SPCA Thames. The contract with the SPCA is currently under review as both the SPCA Thames and TCDC have been

working through a range of issues.

The Compliance Team are now using the TCDC web site, Facebook and its own dog rehoming contacts to try to locate good homes for any pound dogs that are suitable for adoption. This will provide the SPCA with some breathing space after it became overloaded with TCDC dogs and struggled to find homes for the dogs. Several dogs have already been rehomed by the Compliance Team using its own resources.

Council currently has 74 classified dogs on its records including:

9 dangerous dogs  
39 menacing dogs due to breed or type (predominantly Pit Bulls)  
26 menacing dogs due to behaviour

Officers are continuing to survey the owners of any classified dogs to ensure they are complying with the conditions of the classification.

### **Freedom Camping**

Infringements and warnings issued to freedom campers breaching bylaws for the period Jan to the end of April continue to increase with a significant rise in the number of warnings issued compared to previous years. This indicates increased popularity for the designated sites throughout the district with many self-contained campers spilling outside of the sign posted areas. The Thames Coast designated sites are extremely popular with NZMCA members.

| <b>January - April</b> | <b>2015/2016</b> | <b>2016/ 2017</b> |
|------------------------|------------------|-------------------|
| Warnings               | 53               | 270               |
| Infringements          | 659              | 714               |

For the year to date district wide compliance rates average from 83% to 89.2% - all remain below the target of 95% compliance.

Complaints are still being received for both non self-contained and self-contained campers staying overnight outside of designated areas at the Purangi Reserve - Cooks Beach, Buffalo Beach Reserve - Whitianga, Onemana Beach Reserve - Onemana and at Little Bay Reserve - Little Bay.

While non-self-contained campers are being dealt with by way of infringements the self-contained campers are being educated by way of a written warning and brochures. New signs are being designed showing maps of the designated area within the restricted site and also including additional information that providing alternative options for free camping locations. These will be installed in areas of high non-compliance.

### **Service Levels**

A new compliance officer position has been approved in the 2016/2017 Budget and a Business Case for the position was recently approved by the CEO. The new position, expected to commence in early July, will be based in Thames and will provide much needed support for the current Thames Compliance Officer who has a significantly higher RFS workload than other officers, enforces parking time zones throughout the year, has a higher dog population and manages the District Pound. The new officer will also provide additional support to cover the RFS workload and both freedom camping, dogs and parking patrols to the Coromandel - Colville ward. The officer will be expected to work public holidays, weekends and assist with after-hours urgent animal complaints.

## Dog Control

### Dog Control Statistics

↑ - greater than same time last year

↓ - less than same time last year

= - same as current year to date figure

\* ARLA hearings occur approximately once per annum

### Alcohol Inspections

These premises are inspected to ensure that they meet the requirements of the Sale and Supply of Alcohol Act 2012.

| Sale of Liquor Licenses | Registered 2015/2016 | Nov 15 | Dec 15 | Jan 16 | Feb 16 | Mar 16 | Apr 16 | YTD Jul-Apr | Compared to last year |
|-------------------------|----------------------|--------|--------|--------|--------|--------|--------|-------------|-----------------------|
| On                      | 115                  | 2      | 1      | 1      | 9      | 7      | 2      | 35          | ↓                     |
| Off                     | 62                   | 1      | 1      | 1      | 1      | 9      | 3      | 24          | ↓                     |
| Club                    | 32                   | 1      | 1      | 0      | 0      | 1      | 0      | 10          | ↓                     |

All alcohol related matters are tracking well. The overall YTD figures are affected by the 4 month period (Oct-Jan) when licensed premises were visited by the new EHO staff member but the visit was not captured in Pathway. These are now being captured correctly.
