Case Management

The Environment Court operates a caseflow management system for all proceedings filed with it. The Court will supervise or manage the time and events involved in the life of this case, from the time it is filed, to the time it is disposed of. Initially a copy of this appeal will be referred to an Environment Judge shortly after its filing for assignment to a case track.

What is a case track?

The Court specifically manages the flow of cases through a Case Tracking system, of which there are three distinct management tracks. They are:

Standard:

This management track will include most s.120 appeals, non-urgent enforcement proceedings and other miscellaneous proceedings. The Court will typically issue standard directions to the parties, with an emphasis on avoiding unnecessary court appearances at the interlocutory stage and a hearing within six months of commencement.

Priority:

This track is for the more urgent cases, such as urgent enforcement proceedings; also appeals that the Court considers require priority resolution, or matters for which more intense case management is required.

Parties On-Hold:

Cases will be placed onto this track (unless the managing Judge otherwise directs) in circumstances where parties advise that they are not actively seeking a hearing to (for example) negotiate or mediate.

Where your case has not already been assigned to a case track then the Managing Judge will allocate your case to a specific track and you will be notified of this by way of separate correspondence.

Information about the Environment Court and its procedures can be found on the Ministry of Justice web site (<http://www.justice.govt.nz>) and is also available from the Ministry for the Environment (<http://www.mfe.govt.nz>).

Please direct any correspondence or enquiries to myself as Case Manager for this matter and note the above Court reference.
